Jungwoo Precision & Industry Co., Ltd. will start fresh with a new commitment in the turbulent era of globalization. We will always do its utmost.

Jungwoo Precision & Industry Co., Ltd. will start fresh with a new commitment to cope with the rapidly changing era of globalization as it says, "New wine must be put into fresh wineskins." It will always strive to achieve customer satisfaction. Since the establishment of Jungwoo Industry in 1974, it has manufactured parts for tank and vacuum lorries and has been recognized for excellent quality and performance. Based on parts business, it has expanded its business scope into manufacturing special purpose vehicles such as tank lorry. Since 1998, it has been registered as Supplier of Hyundai Motor Company and Tata Daewoo Commercial Vehicle and has supplied its products.

As a result of its continuous hard work to contribute to customer satisfaction and social development over the past 40 years, Jungwoo Precision & Industry Co., Ltd. has become a leading tank lorry manufacturer in the industry. In addition, it has developed into a special purpose vehicle manufacturer along with the subsidiaries of Jungwoo Special Vehicle Co., Ltd. and Jungwoo Heavy Industry Co., Ltd. Jungwoo Precision & Industry Co., Ltd. will not settle with its current performance and will become a leading company in the global market.

We, Jungwoo Precision & Industry Co., Ltd. will focus with all our passion & energies to open up a new market, develop new technology, and create values for customers. In particular, we will stay with our customers by securing global competitiveness, developing new creative products, providing perfect quality assurance, and rendering committed customer service.

We ask for customers' continuous interest and support. Moreover, we wish love and happiness to your family.

Jungwoo Precision & Industry Co., Ltd.

Jungwoo Precision & Industry Co., Ltd. develops into a global special purpose vehicle company.

Through continuous challenge and innovation, it will grow into a global special purpose vehicle company with customers and provide eco-friendly and high value-added products. It will create a happy society based on employee's confidence.

Histroy

○ 1974

1974. 02 Established Jungwoo Industry

○ 1991 ~ 2000

1995. 04 Established a subsidiary of Dowon Automotive Industry
1996. 05 Factory Expansion & Relocation in the Wanju Industrial Complex
1997. 07 Incorporated to Jungwoo Precision & Industry Co., Ltd.
1998. 04 Registered as Supplier of Tata Daewoo Commercial Vehicle
1998. 05 Registered as Supplier of Hyundai Motor Company

○ 2001 ~ 2010

2002. 02 Certified Quality Management System [ISO 9002]
2006. 12 Factory Expansion & Relocation in Jeonju Science Industrial Complex
2010. 03 Certified as a Main-Biz
2010. 06 Established a subsidiary of Jungwoo Special Vehicle Co., Ltd.
Certified as an Inno-Biz

○ 2011 ~

2012. 04 Certified as Quality Management System [ISO 9001:2008]
Established Research & Development center
2014. 01 Established a subsidiary of Jungwoo Heavy Industry Co., Ltd.
2014. 05 Certified as environment Management System [ISO 14001:2004]
2014. 12 Certified as the American Society of Mechanical Engineers [ASME]-U stamp
2015. 12 Certified as a promising small business by Jeollabuk-do
2016. 12 Certified as a venture business, Designated as a promising export firm by the Small & Medium Business Administration
2017. 07 Designated as a leading Jeollabuk-do company and a Ppuri Technology Specialized Company
2018. 06 Designated as a star company by the Ministry of SMEs and Startups [MSS]
2019. 02 Expanded the second factory in Wanju Techno Valley
2019. 03 Designated as an excellent procurement company by the Defense Acquisition Program Administration
2019. 10 Certified as CE

Technology

Quality

FUEL TANK LORRY

Tank lorries are designed to carry different types of oil.
Jungwoo produces fuel tank lorries for transporting by characteristics of each oil
based on easy control and various functions.

GASOLINE TANK LORRY

- Applies the bottom loading system that carries gasoline vaporized at room temperature without loss
- Secures stability through strict quality assurance using automated and standardized parts

LIGHT / HEAVY OIL TANK LORRY

- Realizes the highest profitability through a vehicle with fast mobility and oil tank with the best loading capacity
- Available almost permanently with the best durability in poor road conditions including pothole and rough road, etc.

Chemical Tank Lorry

Chemicals are essential for our life, but there are always explosion hazards. Tank lorries of Jungwoo always safely carry chemicals by reflecting each characteristic of various types of chemicals.

AL CHEMICAL TANK LORRY

SUS CHEMICAL TANK LORRY

Special Tank Lorry

Special tank lorries carry various types of liquid including sulfuric acid, ethyl alcohol, molasses, soy sauce, fructose, milk and so on.

Must be considered for tank lorries from explosion hazards of high-risk chemical liquid to food deterioration. Various vehicles with customized design for the characteristics of chemical liquid, expand customers' choice.

Hydrochloric acid tank lorry

Caustic soda tank lorry

Soy sauce tank lorry

Sulfuric acid tank lorry

Ethyl alcohol tank lorry

hypochlorous acid tank lorry

hydrofluoric acid tank lorry

Organic hydrofluoric acid tank lorry [SUS 316L]

Water Tank Lorry

Water tank lorries are used for carrying drinking water, agricultural and industrial water, street cleaning, and others.

Water tank lorries prevent corrosion by applying anti-rust materials and paint and deliver water where necessary with the best performance.

WATER SPRINKLER TRUCK

- Water tank lorries spray water at constant pressure for cleaning streets. Various functions are applicable with auxiliary engine, water cannon, flushing nozzle, water sprinkler bar, and other options.

WATER WAGON

- A wide selection of products from small to large water wagon for narrow road conditions

Vacuum Lorry

Vacuum lorries are indispensable in our lives. Will a clean life be possible without a vacuum lorry? Vacuum lorries of Jungwoo show the best performance with powerful suction and easy operation, and collect and transport excretions and wastewater.

SUS VACUUM LORRY

STEEL VACUUM LORRY

- Prevents crack and secures durability because of double reinforcement of the tank head in the tank
- Reduces suction and discharge time through efficient operational structure and optimized design

Ground Support Equipment

Aircraft takes off the ground. With aircraft refuelers for direct refuel, hydrant dispensers for connecting underground pipelines and aircraft, conveyer trucks for loading and transporting cargo, and lift trucks for maintenance, aircraft is well managed.

AIRCRAFT REFUELER

- Aircraft refuelers consist of fuel tank and refueling system and are vehicles refueling aircraft. There are 3 types with commercial, military, and helicopter use.
- The best system maximizes efficiency and safety systems including brake interlock system and deadman system secure safety of vehicles.

Hydrant Dispenser

Lift Truck

Tow Tractor

Special Vehicles

Stricter quality standards for special vehicles are necessary for police, administration, firefighting, and citizens. Jungwoo's 40 years of technology for manufacturing special purpose vehicles make our lives easier and safer.

Water Canon

Press Pack

Sewer Cleaning Truck

Fire Water Tanker

Fire Pumper

Fire Chemical Pumper

Asphalt Spraying Truck

Mixer Truck

Trailer

Various trailers are required for different types of cargo. It has many kinds of trailer such as bulk, dump, flatbed, low-bed, and tank trailer by loads and secures stability by applying air suspension, anti-lock braking system [ABS], and others.

Gooseneck Chassis Trailer

Tank Trailer

Bulk Cement Trailer

Double Combination Gooseneck Chassis Trailer

Flatbed Trailer

Lowbed Trailer for Road Construction Equipment

Dumping Chassis Trailer

Lowbed Trailer for Heavy Duty Equipment

Parts

Genuine parts of Jungwoo are available for a long period because of its excellent performance and durability. It also increase safety and work efficiency because of simple structure and easy maintenance.
